

# McCain Walls™ Optional Wall System Components

McCain Walls™ modular temporary wall systems are customizable and reconfigurable to meet any job spec. Optional components are available to enhance wall panel heights up to 14' without stacking, and increase lengths of a wall panel to close small gaps. Options for corners less than or more than 90 degrees and door kits are also available. All McCain Wall system components are manufactured from 0.09 THK aluminum and are available in white powder coat gloss finish.
