

McCain Walls® Modular System Components

McCain Walls modular wall system components are interchangeable and can be reconfigured to meet most job specs. Optional parts are available to enhance wall panel heights up to 14' without stacking, and increase lengths of a wall panel to close small gaps. Options for corners less than or more than 90 degrees and door kits are also available. All McCain Wall system components are manufactured from 0.09 THK aluminum and are available in white powder coat gloss finish.
